Professional Summary

Enthusiastic **Java Full Stack Developer** with hands-on experience in **Java, Spring Boot, React.js, MySQL, and RESTful API development**. Adept at building responsive web applications, integrating backend services, and ensuring robust performance. Strong foundation in **OOP, MVC architecture, and data handling** with a focus on scalability and code efficiency. Seeking to contribute technical and analytical skills in a fast-paced software development environment.

Hard Skills

- **Programming Languages:** Java, Python, SQL, JavaScript, HTML5, CSS3
- **Frameworks & Libraries:** Spring Boot, React.js, Hibernate, Bootstrap, Express.js (Basic)
- **Database Management:** MySQL, MongoDB (Basic), JDBC
- **Backend Development:** RESTful API creation, JSON data handling, Exception Handling, Authentication & Authorization
- **Frontend Development:** Responsive Design, DOM Manipulation, Component-Based Architecture, State Management
- **Version Control & Tools:** Git, GitHub, IntelliJ IDEA, Eclipse, VS Code, Postman
- **Concepts:** CRUD Operations, Microservices (Introductory), SDLC, Agile Methodology, API Integration

---

Soft Skills

Communication | Analytical Thinking | Problem Solving | Time Management | Collaboration | Adaptability | Critical Thinking | Debugging Skills | Teamwork | Continuous Learning

---

Work Experience

Java Full Stack Developer (Intern / Project Experience)
Self-Driven Projects – Hyderabad, Telangana
March 2024

- Designed, developed, and deployed full-stack web applications using **Java, Spring Boot, React.js, and MySQL**.
- Built **REST APIs** for CRUD operations and integrated frontend using **React hooks and state management**.
- Implemented **exception handling**, **data validation**, and **input sanitization** for secure transactions.
- Used **Postman** for API testing and **Git/GitHub** for version control.
- Collaborated in a simulated Agile setup with sprints and stand-up reviews.

Projects

💻 **Employee Management System (Java Full Stack)** | *March – June 2025*

- Developed a CRUD-based full-stack application using **Spring Boot, Hibernate, and React.js**.
- Implemented **JWT Authentication** and **Spring Security** for access control.
- Designed a responsive UI with **React components** and **Bootstrap styling**.
- Connected to **MySQL** database using JPA and optimized SQL queries.

💡 **Currency Converter Application (React + API Integration)** | *July 2025*

- Built a **React.js** application that integrates **live exchange rate APIs** using Fetch/AXIOS.
- Implemented **form validation**, **error handling**, and **responsive layouts** for better UX.
- Deployed the app using GitHub Pages for live demonstration.

📈 **Patient Health Analysis Using Machine Learning (Python)** | *March – July 2024*

- Analyzed healthcare datasets using **Pandas, Scikit-learn, and NumPy**.
- Applied **Logistic Regression** and **Random Forest** models to predict health outcomes.
- Evaluated performance using **RMSE** and **R^2 metrics** and visualized results in Power BI.

Education

Bachelor of Technology (B.Tech) in Computer Science and Engineering
Indur Institute of Engineering & Technology, Siddipet
CGPA: **7.0 / 10** | Graduation Year: **2025**

Certifications

- **Data Science Using Python** – Brain O Vision Tech
- **Power BI Workshop** – Jobaaj Learnings
- **Java Programming (Intermediate)** – Oracle Academy *(Recommended)*
- **Full Stack Development – Java Track** – *(Recommended for next skill upgrade)*

Career Objective

To work as a **Java Full Stack Developer** where I can apply my technical expertise in **Java, Spring Boot, React.js, and MySQL** to design and deliver high-quality, user-focused web applications while continuously enhancing my software engineering skills and contributing to organizational success.
